FILING INSTRUCTIONS - SEAL A NEVADA RECORD FOR SOMETHING THAT IS NO LONGER A CRIME

Prepared for Maria-Alejandra O'Shaughnessy-Whitfield.

THE ROUTE

This written request concerns a Nevada conviction entered before the offense was decriminalized by legislation, referendum or initiative. NRS 179.271(1)(a) permits the request in any court in which the requester was convicted of that offense. Traffic offenses are excluded by subsection 3.

WHERE TO SUBMIT

Submit the written request directly to the clerk of a court in which you were convicted of the offense. Do not make prosecutor consent or a stipulation a prerequisite to submission.

FILING COST AND WAIVER

No court or agency of criminal justice may charge a fee for submission of this request under NRS 179.271(2). A fee-waiver application is not needed to obtain this statutory no-fee treatment. Separate records or independent services may have their own charges; do not confuse those with a filing fee. NRS 179.245(9) also protects qualifying sex-trafficking or involuntary-servitude victims against specified process expenses. That separate protection is not a condition of the no-fee submission rights above. Get legal help if a separate charge or waiver is disputed.

NOTICE AND RESPONSE

The court sends written notice to the prosecuting office. That office has 10 judicial days after receipt of the notice to file a written objection. If there is no timely objection the court must grant the request. A written objection requires a hearing. This is not the ordinary 30-day sealing procedure, and it is not a deadline the requester calculates from the filing date.

WHAT TO PREPARE

Complete the request or petition from the conviction record. Keep supporting documents with it. Do not complete any judicial decision, court signature, or certification for someone else.

Before filing, obtain verified criminal history from the Nevada Central Repository. Submit an Identification File Request for State of Nevada Records of Criminal History with fingerprints and the records fee to the Nevada Department of Public Safety, Records, Communications and Compliance Division. Ask that office whether the NRS 179.245(9) sex-trafficking record-fee waiver applies. Separate records charges do not change the no-fee submission rules for these special routes.

Identify the decriminalizing act, referendum or initiative, its effective date, and the conviction that predates it. This route excludes traffic offenses.

The proposed order and declaration are supporting LegalEase-prepared components, not official court forms. The statutes do not make a prosecutor stipulation a required component of these two special routes. Confirm any additional local formatting requirement with the filing clerk; it does not alter the statutory no-fee and no-preapproval rules.

AFTER THE COURT ACTS

After an order is entered, follow the court's distribution directions. Under NRS 179.275 a copy goes to the Central Repository and each record custodian named in the order. Keep your entered order and confirm the records have been sealed; do not sign a certification of delivery before delivery occurs.

WHEN THIS SELF-HELP PACKET STOPS

- Stop if the offense is a traffic offense, if only part of the conduct was decriminalized, or if you cannot establish that the conviction predates the decriminalizing law.
- Stop for legal review if the applicable law, conviction, court, or record scope is uncertain. Do not substitute a general belief that the conduct should be legal.
- If a written objection is filed, a hearing is set, or the request is denied, this bounded self-help preparation stops. Get legal help with a response, contested hearing, or appeal.
- Get legal help for immigration or firearm-rights questions. This sealing packet makes no determination of those consequences.
- This Nevada packet does not clear federal, out-of-state, military, or tribal records.

CONSOLIDATED PETITION TO SEAL MORE THAN ONE RECORD IN DISTRICT COURT (NRS 179.2595)

The petitioner, Maria-Alejandra O'Shaughnessy-Whitfield, applies to this court under NRS 179.2595; NRS 179.245; NRS 179.255 and states:

A. THE RELIEF THIS PETITION ASKS FOR, AS THE COMMITTED RECORD STATES IT

NRS 179.2595 permits a person seeking to seal more than one record to petition the district court for the county, which may seal all the records within that county including justice and municipal court cases. This is a venue overlay on the conviction and non-conviction tracks rather than a separate remedy: each underlying record still has to satisfy its own section. Clark County practice illustrates both the value and the trap: only one petition, affidavit and order is required to seal all records within the county, but the district attorney will not stipulate to petitions that include municipal court matters, so the packet must go to the appropriate city attorney and then to the district attorney with a separate signature line for each prosecuting agency. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

C. THE FACTS OF THIS MATTER, WHICH THE PETITIONER SUPPLIES FROM THE RECORD

(Asked because Nevada practice is to seal a county's records as one package.)
.....
.....

[C7 - sea trafficking] Were you a victim of sex trafficking or involuntary servitude in connection with this record?
(Asked because NRS 179.245(9) waives every fee in the process, and because the NRS 179.247 vacatur route may be better than sealing.)
.....
.....

[C8 - mlt court levels] Which of your Nevada records are in district court, which in justice court, and which in municipal court?
(Asked because a packet that includes municipal court matters must go to the city attorney as well as the district attorney, and the order needs a signature line for each.)
.....
.....

[C9 - mlt township] For any justice court case, which township?

(Asked because justice court petitions must be captioned to the specific township.)

WHAT THIS SET OF PAPERS IS

Consolidated Petition to Seal More Than One Record in District Court (NRS 179.2595).

NRS 179.2595 permits a person seeking to seal more than one record to petition the district court for the county, which may seal all the records within that county including justice and municipal court cases. This is a venue overlay on the conviction and non-conviction tracks rather than a separate remedy: each underlying record still has to satisfy its own section. Clark County practice illustrates both the value and the trap: only one petition, affidavit and order is required to seal all records within the county, but the district attorney will not stipulate to petitions that include municipal court matters, so the packet must go to the appropriate city attorney and then to the district attorney with a separate signature line for each prosecuting agency. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

WHERE IT GOES

The district attorney's or city attorney's office first, then the clerk of the appropriate court
The same prosecutor-first workflow and the same county variations as the ordinary conviction petition. Venue: The district court for the county, which is the highest court in the county and may seal all charges within it.

WHAT IT COSTS, AND WHETHER A WAIVER EXISTS

Fee as recorded: County-dependent, plus the repository criminal history and fingerprinting costs and certified copies. Every fee is waived for a victim of sex trafficking or involuntary servitude under NRS 179.245(9). Fee waiver as recorded: NRS 179.245(9) for a victim of sex trafficking or involuntary servitude; county fee-waiver applications otherwise.

WHO MUST BE SERVED

Service as recorded: The signed order is served on every agency named in it and goes to the Central Repository under NRS 179.275. Notice as recorded: The prosecuting agency receives the packet before filing. If the prosecutor stipulates, or fails to object within 30 days, the court may seal without a hearing.

WHAT THE RECORD SAYS YOU MUST KNOW

- The sex trafficking fee waiver under NRS 179.245(9) is not a separate track but a cross-cutting entitlement that zeroes out every fee in the process, including fingerprints, criminal history and certified copies. It must be surfaced wherever a fee is mentioned.

WHEN TO STOP AND GET HELP INSTEAD OF FILING

- Records in more than one county.
- Any packet mixing municipal court matters with justice or district court matters, where the stipulation must be obtained from more than one prosecuting agency.
- Any offence-category question. Nevada eligibility turns on category A through E felony, gross misdemeanour or misdemeanour and on whether the offence is a crime of violence, which is a legal classification driving a one-year versus ten-year answer.
- Any pending charge, and any conviction during the clean period other than a minor moving or standing traffic violation.
- Prosecutor refusal to stipulate, which converts the matter into a contested hearing.
- Records in more than one county, or in both municipal and justice or district court, where the stipulation practice differs by prosecuting agency.
- Federal, tribal, military and out-of-state records.
- Any participant whose goal is firearm rights, which sealing does not restore.
- Immigration exposure. Nevada sealing must not be described as having immigration effect.

FILING INSTRUCTIONS - SEAL A NEVADA RECORD AFTER A PARDON

Prepared for Maria-Alejandra O'Shaughnessy-Whitfield.

THE ROUTE

NRS 179.273(1) requires automatic sealing when the court and Central Repository receive a certified copy of an unconditional pardon from the Nevada State Board of Pardons Commissioners. Subsection 2 also permits a written petition with proof of the pardon in any court in which the petitioner was convicted. The court must grant that petition unless the listed charges differ from those listed in the pardon. This packet is limited to the existing unconditional-pardon product route; a conditional or ambiguous pardon goes to legal review.

WHERE TO SUBMIT

First check whether the pardoned records have already been sealed through the automatic process. When a petition is needed, submit it with proof of the pardon directly to the clerk of a court in which you were convicted. Do not submit it for prosecutorial preapproval.

FILING COST AND WAIVER

No court or agency of criminal justice may charge a fee for submission of this petition under NRS 179.273(5). No indigency finding or fee-waiver application is needed for that no-fee treatment. Separate records or independent services may have their own charges; do not confuse those with a filing fee.
NRS 179.245(9) also protects qualifying sex-trafficking or involuntary-servitude victims against specified process expenses. That separate protection is not a condition of the no-fee submission rights above. Get legal help if a separate charge or waiver is disputed.

NOTICE AND RESPONSE

NRS 179.273(3) expressly excludes prosecuting-attorney or criminal-justice-agency review of this petition. No prosecutor stipulation, prosecutor signature, or 30-day prosecutor response period is part of this special petition procedure.

WHAT TO PREPARE

Complete the request or petition from the conviction record. Keep supporting documents with it. Do not complete any judicial decision, court signature, or certification for someone else.
Before filing, obtain verified criminal history from the Nevada Central Repository. Submit an Identification File Request for State of Nevada Records of Criminal History with fingerprints and the records fee to the Nevada Department of Public Safety, Records, Communications and Compliance Division. Ask that office whether the NRS 179.245(9) sex-trafficking record-fee waiver applies. Separate records charges do not change the no-fee submission rules for these special routes.
Proof of the pardon is a required attachment. Do not substitute a request for a future pardon or an unsupported statement that one was granted.
The proposed order and declaration are supporting LegalEase-prepared components, not official court forms. The statutes do not make a prosecutor stipulation a required component of these two special routes. Confirm any additional local formatting requirement with the filing clerk; it does not alter the statutory no-fee and no-preapproval rules.

AFTER THE COURT ACTS

Keep the entered order. Ask the court how it transmits the sealing action to the Central Repository and affected custodians, and confirm that the records covered by the pardon were sealed. Do not treat this packet as an application for a pardon or as an assurance about federal, immigration, or firearm consequences.

WHEN THIS SELF-HELP PACKET STOPS

- Stop if the pardon is conditional or ambiguous, is not from the Nevada State Board of Pardons Commissioners, or does not identify the charges you are asking to seal.
- Stop if proof of the pardon is missing or the conviction and pardon charge lists do not match. Do not invent proof, infer missing charges, or generate the Board's certification.
- If the court disputes scope, sets a contested hearing, or denies relief, get legal help before responding or appealing. Prosecutor consent is not a statutory condition of this petition.
- Get legal help for immigration or firearm-rights questions. This sealing packet makes no determination of those consequences.
- This Nevada packet does not clear federal, out-of-state, military, or tribal records.

PETITION TO SEAL RECORDS AFTER CONVICTION (NRS 179.245)

The petitioner, Maria-Alejandra O'Shaughnessy-Whitfield, applies to this court under NRS 179.245; NRS 179.2405; NRS 179.2445; NRS 179.265; NRS 179.275; NRS 179.285; NRS 179.295; NRS 179.301; NRS 176A.850 and states:

A. THE RELIEF THIS PETITION ASKS FOR, AS THE COMMITTED RECORD STATES IT

A person convicted in Nevada may petition the court in which they were convicted to seal all records relating to the conviction once the waiting period for the offence category has run. The periods are ten years for a category A felony, a crime of violence or residential burglary; five years for a category B, C or D felony; two years for a category E felony or a gross misdemeanour; seven years for non-felony Medicaid fraud, non-felony DUI or non-felony battery constituting domestic violence; two years for misdemeanour battery, harassment, stalking or a protective-order violation; and one year for any other misdemeanour. The trigger differs by paragraph: paragraphs (a) to (d) run from release from actual custody or discharge from parole or probation, whichever is later, while paragraphs (e) to (g) run from release from actual custody or from the end of a suspended sentence, whichever is later, and the eligibility engine must model both. NRS 179.2445 creates a rebuttable presumption that records should be sealed where the applicant satisfies all statutory requirements, except for a defendant dishonourably discharged from probation under NRS 176A.850, and if the prosecutor stipulates or fails to object within 30 days the court may seal without a hearing. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

B. THE PETITIONER

Date of birth: 1968-12-31

C. THE FACTS OF THIS MATTER, WHICH THE PETITIONER SUPPLIES FROM THE RECORD

Each item below is printed in the words the committed record uses for it. Fill each one from the record itself.

[C1 - cvs full legal name] What is your full legal name, and have you used any other names?
.....
.....

[C2 - cvs date of birth] What is your date of birth?
.....
.....

[C3 - cvs county] In which Nevada county did the case happen, and which court handled it - district, justice or municipal?
(Asked because the court level decides the venue and because the stipulation practice differs between district attorneys and city attorneys.)
.....
.....

[C4 - cvs case number] What is the case number?
.....
.....

[C5 - cvs offence details] What was the offence called, which NRS section was cited, and on what date did it happen?
.....
.....

[C6 - cvs all nevada records] What other Nevada arrests, charges or convictions do you have, in any county and any court?
(Asked because Nevada practice is to seal a county's records as one package, and because a later case interacts with the clean-period requirement on an earlier one.)
.....
.....

[C7 - cvs pending charges] Is any charge pending against you now, anywhere?
(Asked because NRS 179.245(5) requires the court to find that during the prescribed period the petitioner has not been charged with any offence for which charges are pending and has not been convicted of any offence, except minor moving or standing traffic violations.)
.....
.....

[C8 - cvs trafficking] Were you a victim of sex trafficking or involuntary servitude in connection with this record?
(Asked because NRS 179.245(9) waives every fee in the process for a victim of sex trafficking or involuntary servitude, including fingerprints, the criminal history and certified copies, and because a separate vacatur route under NRS 179.247 may be better than sealing.)
.....
.....

[C9 - cvs offence category] What category was the offence - category A, B, C, D or E felony, gross misdemeanour, or misdemeanour?
(Asked because the category sets the waiting period and is taken from the official record, not from recollection. It drives a one-year versus ten-year answer.)
.....
.....

[C10 - cvs release date] When were you released from custody, and when were you discharged from parole or probation?
(Asked because paragraphs (a) to (d) run from the later of those two events.)
.....
.....

[C11 - cvs suspended sentence] Were you given a suspended sentence, and if so when did it end?
(Asked because paragraphs (e) to (g) run from release from actual custody or the end of a suspended sentence, whichever is later, which is a different trigger from the felony paragraphs.)
.....
.....

[C12 - cvs dui details] If this was a DUI, which subsection were you punished under, and did you take part in the statewide sobriety and drug monitoring programme?
(Asked because NRS 179.245(7) preserves eligibility for a DUI punished under NRS 484C.400(1)(b), and for one punished under (1)(c) where judgment was entered under (1)(b) because of participation in the NRS 484C.392 programme. A blanket rule that felony DUI is never sealable will wrongly reject eligible people.)
.....
.....

[C13 - cvs outstanding fees] Do you still owe any fines, jail fees, probation fees or house arrest costs on this case?
(Asked because the statute keys on release and discharge rather than payment, but outstanding fees are widely reported to stall petitions in practice. This is a practical prerequisite to verify, not a statutory one.)
.....
.....

[C14 - cvs dishonourable discharge] Were you dishonourably discharged from probation?
(Asked because NRS 179.2445 withholds the rebuttable presumption from a defendant dishonourably

discharged from probation under NRS 176A.850, which changes what the packet can tell the participant to expect.)
.....
.....

[C15 - cvs prior denial] Have you asked a Nevada court to seal any record before, and was it denied? If so, when?
(Asked because NRS 179.265 bars a rehearing for a period after a denial, which the internal reference omits entirely.)
.....
.....

FILING INSTRUCTIONS - SEAL YOUR NEVADA CONVICTION

This page is for Maria-Alejandra O'Shaughnessy-Whitfield.

WHAT THIS SET OF PAPERS IS

Petition to Seal Records After Conviction (NRS 179.245).

A person convicted in Nevada may petition the court in which they were convicted to seal all records relating to the conviction once the waiting period for the offence category has run. The periods are ten years for a category A felony, a crime of violence or residential burglary; five years for a category B, C or D felony; two years for a category E felony or a gross misdemeanour; seven years for non-felony Medicaid fraud, non-felony DUI or non-felony battery constituting domestic violence; two years for misdemeanour battery, harassment, stalking or a protective-order violation; and one year for any other misdemeanour. The trigger differs by paragraph: paragraphs (a) to (d) run from release from actual custody or discharge from parole or probation, whichever is later, while paragraphs (e) to (g) run from release from actual custody or from the end of a suspended sentence, whichever is later, and the eligibility engine must model both. NRS 179.2445 creates a rebuttable presumption that records should be sealed where the applicant satisfies all statutory requirements, except for a defendant dishonourably discharged from probation under NRS 176A.850, and if the prosecutor stipulates or fails to object within 30 days the court may seal without a hearing. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

WHERE IT GOES

The district attorney's or city attorney's office first, then the clerk of the appropriate court
Nevada's workflow puts the prosecutor in the middle rather than at the end: the state's own instructions direct the petitioner to prepare the petition and order, submit them to the prosecuting agency with attachments, and file with the court clerk only after the prosecutor stipulates. Local practice is material. The Clark County District Attorney will not stipulate to petitions that include municipal court arrests or convictions, so a packet covering both must go to the appropriate city attorney and then to the district attorney, with a separate signature line for each prosecuting agency on the order. Only one petition, affidavit and order is required to seal all records within Clark County, and justice court petitions must be captioned to the specific township. Las Vegas Municipal Court requires its own Petition, Declaration and Verification, Order and Stipulation and denies typed signatures outright. Reno Municipal Court charges a filing fee, sets the petition for hearing at least 60 days after filing, and applies the sex trafficking fee exemption.
Venue: The court in which the person was convicted, being a district, justice or municipal court. NRS 179.245(1). District court is the highest court in the county and may seal all charges within the county; NRS 179.2595 permits consolidation there.

WHAT IT COSTS, AND WHETHER A WAIVER EXISTS

Fee as recorded: County-dependent. Reno Municipal Court charges a filing fee; the repository criminal history and fingerprinting carry their own costs; certified copies are charged. Every one of those is waived for a victim of sex trafficking or involuntary servitude under NRS 179.245(9). Fee waiver as recorded: NRS 179.245(9) for a victim of sex trafficking or involuntary servitude, which zeroes every fee in the process. County fee-waiver applications otherwise.

WHO MUST BE SERVED

Service as recorded: The signed order is served on every agency named in it, and goes to the Central Repository under NRS 179.275. Notice as recorded: The prosecuting agency receives the packet before filing. If the prosecutor stipulates, or fails to object within 30 days, the court may seal without a hearing.

WHAT THE RECORD SAYS YOU MUST KNOW

- The petition is not the first step. The district attorney is. The state's own instructions direct the petitioner to prepare the petition and order, submit them to the DA's office with attachments, and only file with the court clerk after the DA stipulates.
- NRS 179.245(7) preserves eligibility for a DUI punished under NRS 484C.400(1)(b), and for one punished under (1)(c) where judgment was entered under (1)(b) because of participation in the statewide sobriety and drug monitoring program. A blanket "felony DUI is never sealable" rule will wrongly reject eligible people.
- The sex trafficking fee waiver under NRS 179.245(9) is not a separate track but a cross-cutting entitlement that zeroes out every fee in the process, including fingerprints, criminal history and certified copies. It must be surfaced wherever a fee is mentioned.
- Everything runs off a current verified criminal history from the Central Repository. NRS 179.245(2)(a) and 179.255(3)(a) make it a statutory attachment requirement. No repository record, no packet.

WHEN TO STOP AND GET HELP INSTEAD OF FILING

- Any question about whether an offence is a sexual offence within the eighteen-item NRS 179.245(10)(b) list, or a crime against a child under NRS 179D.0357.
- Any DUI, where the NRS 179.245(7) carve-back has to be applied rather than a blanket exclusion.
- Any dishonourable discharge from probation, which removes the presumption.
- A denial within the NRS 179.265 rehearing bar.
- Any offence-category question. Nevada eligibility turns on category A through E felony, gross misdemeanour or misdemeanour and on whether the offence is a crime of violence, which is a legal classification driving a one-year versus ten-year answer.
- Any pending charge, and any conviction during the clean period other than a minor moving or standing traffic violation.
- Prosecutor refusal to stipulate, which converts the matter into a contested hearing.
- Records in more than one county, or in both municipal and justice or district court, where the stipulation practice differs by prosecuting agency.

- Federal, tribal, military and out-of-state records.
- Any participant whose goal is firearm rights, which sealing does not restore.
- Immigration exposure. Nevada sealing must not be described as having immigration effect.
- Offense category. Nevada eligibility turns on category A through E felony, gross misdemeanor, or misdemeanor, and on whether the offense is a "crime of violence." This is a legal classification, not a lookup, and it drives a 1-year versus 10-year answer.

PETITION TO SEAL RECORDS AFTER DISMISSAL, DECLINATION OF PROSECUTION OR ACQUITTAL (NRS 179.255(1))

The petitioner, Maria-Alejandra O'Shaughnessy-Whitfield, applies to this court under NRS 179.255; NRS 179.255(1); NRS 179.255(3); NRS 179.255(4); NRS 179.255(9); NRS 179.2445; NRS 179.265; NRS 179.275; NRS 179.285; NRS 179.295; NRS 179.301 and states:

A. THE RELIEF THIS PETITION ASKS FOR, AS THE COMMITTED RECORD STATES IT

Where charges were dismissed the petition may be filed at any time after the dismissal; where prosecution was declined it may be filed at any time after the applicable statute of limitations has run, or any time eight years after the arrest, or pursuant to a stipulation between the parties; and where the person was acquitted it may be filed at any time after the acquittal. On an acquittal, and a finding that there is no evidence further action will be brought, the court shall order the records sealed, so relief is mandatory there; on a dismissal or declination it is discretionary but carries the NRS 179.2445 presumption. The NRS 179.245(6) conviction exclusions do not govern this track, so an arrest for an offence that could never be sealed as a conviction is still sealable where the case was dismissed or ended in acquittal. NRS 179.255(3)(b) adds an express requirement that the petition state the disposition of the proceedings. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

.....
.....

[C8 - ncv disposition] How did the case end - the charges were dismissed, the prosecutor declined to pursue it, or you were acquitted?
(Asked because the three routes have different timing and because an acquittal carries mandatory relief while a dismissal or declination is discretionary.)
.....
.....

[C9 - ncv arrest date] On what date were you arrested?
(Asked because the declination route allows a petition any time eight years after the arrest.)
.....
.....

[C10 - ncv deferred judgment] Was the case dismissed because you completed a programme or a deferred judgment agreement?
(Asked because a deferred judgment dismissal routes to NRS 176.211 rather than to this track, and a participant will describe both as a dismissal.)
.....
.....

[C11 - ncv further action] Has anyone told you the case might be refiled?
(Asked because the court must find there is no evidence that further action will be brought.)

FILING INSTRUCTIONS - SEAL A NEVADA ARREST THAT DID NOT END IN A CONVICTION

This page is for Maria-Alejandra O'Shaughnessy-Whitfield.

WHAT THIS SET OF PAPERS IS

Petition to Seal Records After Dismissal, Declination of Prosecution or Acquittal (NRS 179.255(1)).

Where charges were dismissed the petition may be filed at any time after the dismissal; where prosecution was declined it may be filed at any time after the applicable statute of limitations has run, or any time eight years after the arrest, or pursuant to a stipulation between the parties; and where the person was acquitted it may be filed at any time after the acquittal. On an acquittal, and a finding that there is no evidence further action will be brought, the court shall order the records sealed, so relief is mandatory there; on a dismissal or declination it is discretionary but carries the NRS 179.2445 presumption. The NRS 179.245(6) conviction exclusions do not govern this track, so an arrest for an offence that could never be sealed as a conviction is still sealable where the case was dismissed or ended in acquittal. NRS 179.255(3)(b) adds an express requirement that the petition state the disposition of the proceedings. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

WHERE IT GOES

The district attorney's or city attorney's office first, then the clerk of the appropriate court
The same prosecutor-first workflow and the same county variations as the conviction track. Under NRS 179.255(4) the court notifies the arresting agency, and the county prosecuting attorney for district or justice court matters or the city prosecuting attorney for municipal court matters.
Venue: The court in which the charges were dismissed, the court having jurisdiction in which the charges were declined, or the court in which the acquittal was entered. NRS 179.2595 permits consolidation in district court.

WHAT IT COSTS, AND WHETHER A WAIVER EXISTS

Fee as recorded: County-dependent, plus the repository criminal history and fingerprinting costs and certified copies. Every fee is waived for a victim of sex trafficking or involuntary servitude under NRS 179.245(9). Fee waiver as recorded: NRS 179.245(9) for a victim of sex trafficking or involuntary servitude; county fee-waiver applications otherwise.

WHO MUST BE SERVED

Service as recorded: The signed order is served on every agency named in it and goes to the Central Repository under NRS 179.275. Notice as recorded: The prosecuting agency receives the packet before

filing. If the prosecutor stipulates, or fails to object within 30 days, the court may seal without a hearing.

WHAT THE RECORD SAYS YOU MUST KNOW

- Warn declination-route participants about NRS 179.255(9): where prosecution was declined and the records were sealed, the prosecutor may still file charges before the limitations period expires, and the court must then order the records inspected without any petition.
- The sex trafficking fee waiver under NRS 179.245(9) is not a separate track but a cross-cutting entitlement that zeroes out every fee in the process, including fingerprints, criminal history and certified copies. It must be surfaced wherever a fee is mentioned.
- Everything runs off a current verified criminal history from the Central Repository.

WHEN TO STOP AND GET HELP INSTEAD OF FILING

- Declination cases where the statute of limitations analysis is not obvious.
- Any case where the participant is unsure whether the disposition was a dismissal or a deferred judgment.
- Any indication that further action may be brought.
- Any offence-category question. Nevada eligibility turns on category A through E felony, gross misdemeanour or misdemeanour and on whether the offence is a crime of violence, which is a legal classification driving a one-year versus ten-year answer.
- Any pending charge, and any conviction during the clean period other than a minor moving or standing traffic violation.
- Prosecutor refusal to stipulate, which converts the matter into a contested hearing.
- Records in more than one county, or in both municipal and justice or district court, where the stipulation practice differs by prosecuting agency.
- Federal, tribal, military and out-of-state records.
- Any participant whose goal is firearm rights, which sealing does not restore.
- Immigration exposure. Nevada sealing must not be described as having immigration effect.

PETITION - SEAL A NEVADA RECORD AFTER FINISHING A REENTRY PROGRAM

IN THE ..... COURT

SEALING OF RECORDS AFTER COMPLETION OF A PROGRAM FOR REENTRY (NRS 179.259)

The petitioner, Maria-Alejandra O'Shaughnessy-Whitfield, applies to this court under NRS 179.259; NRS 179.2445; NRS 179.275; NRS 179.285 and states:

A. THE RELIEF THIS PETITION ASKS FOR, AS THE COMMITTED RECORD STATES IT

NRS 179.259, "Sealing records after completion of program for reentry", provides a sealing route for a person who has completed a reentry programme. The controlling review approves the track with limitations and treats it as running on the same machinery as the ordinary conviction petition: repository record, generated pleading, prosecutor submission, then filing and service. The section's presence and official title were confirmed in the chapter index at the Nevada Legislature. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

B. THE PETITIONER

Date of birth: 1968-12-31

C. THE FACTS OF THIS MATTER, WHICH THE PETITIONER SUPPLIES FROM THE RECORD

Each item below is printed in the words the committed record uses for it. Fill each one from the record itself.

[C1 - sea full legal name] What is your full legal name, and have you used any other names?
.....
.....

[C2 - sea date of birth] What is your date of birth?
.....
.....

[C3 - sea county] In which Nevada county did the case happen, and which court handled it - district, justice or municipal?
.....
.....

[C4 - sea case number] What is the case number?
.....
.....

[C5 - sea offence details] What was the offence called, which NRS section was cited, and on what date did it happen?
.....
.....

[C6 - sea all nevada records] What other Nevada arrests, charges or convictions do you have, in any county and any court?
(Asked because Nevada practice is to seal a county's records as one package.)
.....
.....

[C7 - sea trafficking] Were you a victim of sex trafficking or involuntary servitude in connection with this record?
(Asked because NRS 179.245(9) waives every fee in the process, and because the NRS 179.247 vacatur route may be better than sealing.)
.....
.....

[C8 - rnt program] Which reentry programme did you complete, and when did you finish it?
.....
.....

[C9 - rnt completion proof] Do you have the document showing you completed it?
(Asked because completion is the trigger and the court will want it evidenced.)
.....
.....

D. THE REQUEST

The petitioner asks the court to grant the relief described in paragraph A, under NRS 179.259; NRS 179.2445; NRS 179.275; NRS 179.285.

FILING INSTRUCTIONS - SEAL A NEVADA RECORD AFTER FINISHING A REENTRY PROGRAM

This page is for Maria-Alejandra O'Shaughnessy-Whitfield.

WHAT THIS SET OF PAPERS IS

Sealing of Records After Completion of a Program for Reentry (NRS 179.259).

NRS 179.259, "Sealing records after completion of program for reentry", provides a sealing route for a person who has completed a reentry programme. The controlling review approves the track with limitations and treats it as running on the same machinery as the ordinary conviction petition: repository record, generated pleading, prosecutor submission, then filing and service. The section's presence and official title were confirmed in the chapter index at the Nevada Legislature. Nevada calls it record sealing and never expungement: the Department of Public Safety states directly that sealing is not expungement because it does not authorise destruction of the records. Under NRS 179.285 the proceedings are deemed never to have occurred and civil rights are restored, but NRS 179.295 allows sealed records to be reopened and NRS 179.301 allows certain persons and agencies to inspect them. A Nevada order does not bind out-of-state or federal agencies and does not reach records they hold. Sealing does not restore firearm rights; only a pardon that does not restrict the right to bear arms does.

WHERE IT GOES

The district attorney's or city attorney's office first, then the clerk of the appropriate court
The same prosecutor-first workflow and the same county variations as the ordinary conviction petition. Venue: The court in which the conviction was entered.

WHAT IT COSTS, AND WHETHER A WAIVER EXISTS

Fee as recorded: County-dependent, plus the repository criminal history and fingerprinting costs and certified copies. Every fee is waived for a victim of sex trafficking or involuntary servitude under NRS 179.245(9). Fee waiver as recorded: NRS 179.245(9) for a victim of sex trafficking or involuntary servitude; county fee-waiver applications otherwise.

WHO MUST BE SERVED

Service as recorded: The signed order is served on every agency named in it and goes to the Central Repository under NRS 179.275. Notice as recorded: The prosecuting agency receives the packet before filing. If the prosecutor stipulates, or fails to object within 30 days, the court may seal without a hearing.

WHAT THE RECORD SAYS YOU MUST KNOW

- The sex trafficking fee waiver under NRS 179.245(9) is not a separate track but a cross-cutting entitlement that zeroes out every fee in the process, including fingerprints, criminal history and certified copies. It must be surfaced wherever a fee is mentioned.

WHEN TO STOP AND GET HELP INSTEAD OF FILING

- Any question about whether the programme completed successfully.
- Any programme that is not a reentry programme within the section.
- Any offence-category question. Nevada eligibility turns on category A through E felony, gross misdemeanour or misdemeanour and on whether the offence is a crime of violence, which is a legal classification driving a one-year versus ten-year answer.
- Any pending charge, and any conviction during the clean period other than a minor moving or standing traffic violation.
- Prosecutor refusal to stipulate, which converts the matter into a contested hearing.
- Records in more than one county, or in both municipal and justice or district court, where the stipulation practice differs by prosecuting agency.
- Federal, tribal, military and out-of-state records.
- Any participant whose goal is firearm rights, which sealing does not restore.
- Immigration exposure. Nevada sealing must not be described as having immigration effect.
