Local filing instructions

Your destination is Court of Common Pleas, Franklin County, Ohio, General Division, Criminal, determined from the supplied court record. These Franklin diagnostic fixtures do not limit statewide route coverage; another court requires its own current mandatory mechanics before generation.

Franklin criminal filings use electronic filing. A self-represented filer may bring paper to the clerk for registration/scanning assistance and submission, or mail paper for clerk registration/scanning/filing. Incarcerated self-represented defendants submit paper themselves. Email and fax are not substitutes. Clerk: Franklin County Clerk of Courts, General Division, 345 South High Street, first floor, Columbus, OH 43215.

Original application, continuation and service pages use embedded Arial at 12 points, double spaced. Official Form96-C1 and the BCI form retain the issuer layout. Each submitted PDF is limited to 5 MB, with 25 MB together. Retain both submission receipt and final clerk acceptance; correct rejections and verify accepted timestamp. Proposed orders must be DOCX; no proposed order is required by the adopted packet and none is included.

Serve opposing counsel and unrepresented parties under Local Rule 19 and retain written proof. The included service certificate is unexecuted. Confirm recipient name/address and permitted method, and complete actual method/date/signature only after service. Court statutory notice does not replace this written proof. Self-represented defendants receive paper service.

R.C.2953.35 requires \$50 unless indigent; confirm current clerk payment instructions.

These fixtures are nonindigent. If requesting indigency, obtain the exact current court affidavit and execute it truthfully; generation refuses that branch until the document is bound. No judicial indigency finding is prefilled.

Local filing instructions

Review and sign the original application and date it personally. It is an original pleading, not an official state form.

Records to obtain and compare

Obtain Certified disposition and the charging document. Ask the clerk for a certified copy of the disposition and of the complaint or indictment. Which former version of the statute applied depends on the date and the charging language.

Check your answer to "Which Revised Code section were you convicted under, and on what date?" against Certified disposition and the charging document, and correct the packet if they disagree.

Obtain BCI criminal history record. Request a criminal history record from BCI to assemble the full docket.

Check your answer to "What every charge was that came out of the same incident, and how each one ended." against BCI criminal history record, and correct the packet if they disagree.

Keep originals and certified dispositions for every charge from the incident. Compare the docket with your BCI record and proof of final discharge, including fines and restitution. Unpaid court costs alone do not delay final discharge. Synthetic fixture facts are not certified documents; obtain actual record evidence before filing.

Obtain the former statutory version, charging language, incident/conduct evidence, license and authorization evidence for the exact former-notification branch. This is not general firearm relief or a firearm-rights restoration packet.

Hearing, objections and post-order instructions

The court decides eligibility and relief. Do not fill judicial findings, prosecutor decisions, hearing dates or court/service certifications.

The court sets a hearing and gives prosecutor notice under R.C.2953.35; follow the actual notice.

Stop for legal assistance: Any firearm conviction that is not the obsolete notification offence. This is not a general firearm expungement.

Stop for legal assistance: Any question about which former version of ORC 2923.16 or ORC 2923.12 applied.

Stop for legal assistance: Any incident that produced more than one charge with different dispositions, which triggers ORC 2953.61.

Stop for legal assistance: Pending criminal proceedings or open warrants.

Stop for legal assistance: Prosecutor objection, and any victim objection where applicable.

Stop for legal assistance: Choosing between sealing and expungement, which is a legal judgment with different waits and different exclusions.

Stop for legal assistance: Immigration exposure.

This is not a general firearm expungement. It is tied to specific old statutory versions and authorization language, and any other firearm conviction is outside it.

Ohio has both sealing and expungement and they are different remedies. Do not say "completely gone from everywhere".

"Eligible offender" no longer exists. SB 288 removed that definition from ORC 2953.31 and with it the numeric cap on how many convictions a person could seal. Any product logic

Hearing, objections and post-order instructions

inherited from pre-2023 Ohio is wrong.

"Sentence" does not include payment of court costs, so unpaid court costs do not delay eligibility. That is a common and expensive misunderstanding and it is worth telling participants explicitly.

If relief is granted, retain the signed order and follow its agency distribution directions. The BCI request is a blank post-order transmission companion for the authorized sender, not an application for relief. Do not sign, date, check record-system boxes or certify a judicial order before those events occur.

Do not import R.C.2953.32 limited-retention language as though it were a rule of R.C.2953.35. The exact signed order controls.
