Participant personal history and reasons

Name: Alexandrina Katherine Montgomery Reyes | Case: 2013-CF-00987

I was born on November 23, 1988 in Springfield, Illinois. I completed high school in 2006 and a shipping and logistics certificate in 2018. I lived in Springfield from birth through 2010, worked in retail, and returned in 2012 after two years in Peoria working in food service. I have worked in warehouse shipping in Springfield since 2016. I am unmarried and have no children or child-support obligation. I completed financial counseling in 2017 and have no substance-abuse or mental-health treatment history to report. I volunteer at a food pantry and neighborhood cleanup events. My employers recognized my attendance in 2019 and 2023. Supporting records and recommendation letters must be obtained by the participant; this diagnostic narrative does not create them.

Reasons for seeking the certificate:

I seek a certificate because my conviction has limited my work and housing opportunities. I was denied an apartment application and a supervisory job after background checks. I ask the Board to consider completion of my sentence, stable employment, counseling and community service. I understand relief is discretionary. I want an opportunity to move forward while remaining truthful about my history.

Certificate application: limits and eligibility

This is the Illinois Prisoner Review Board Certificate of Sealing application stage. The Board decides whether to issue a certificate; the certificate is not itself an order sealing or expunging records. A separate circuit-court petition and issued certificate are required at stage 2. Do not send the statewide court Request as a substitute for this Board application.

Read and complete the Eligibility Acknowledgement first, include it with the application, and personally initial its two statements. The Board may authorize only Class 3 and Class 4 felony convictions from one information or indictment. Only one certificate under the applicable provision may be received during a lifetime. The Board has sole discretion; generation of these forms promises no result.

The sealing acknowledgement requires five years since expiration of the sentence without a disqualifying arrest or detention, and proof of successful drug-abuse treatment for the listed drug statutes where applicable. Its listed sex, violence, assault/battery, domestic violence, protection-order, firearm and DUI exclusions must be checked against the actual record. If ineligible, do not sign a false acknowledgement; obtain advice about waiting or the separate Executive Clemency process.

The adopted route calls for legal help at the discretionary Board stage and for any advocacy or Board hearing. The application may be prepared from your own answers, but a template cannot make the rehabilitation case for you. For referral, contact the Office of the State Appellate Defender, Expungement Unit, 866-787-1776. Stop self-representation if the court stage is contested or an objection or contested hearing arises.

Understand the outcome before paying for assistance. Applying for a certificate does not clear a record, erase all copies or guarantee Board or court approval. Sealing restricts public access rather than destroying the record; authorized law-enforcement and other legally permitted access can remain. Expungement and sealing are different remedies, and the eventual order determines the records and relief covered.

Records and personal statements

Obtain the Illinois State Police statewide criminal-history transcript through Access and Review by supplying fingerprints and identifying information at a law-enforcement/correctional facility or licensed fingerprint vendor. The held ISP schedule makes Access and Review free; vendor or local costs may differ. If there were Chicago arrests, obtain the Chicago Police Department RAP sheet, for which a local fee may apply. Obtain certified dispositions from each relevant circuit clerk and reconcile case numbers, charges, arrest dates and outcomes.

Use the actual conviction, aliases, sentence, discharge and appeal records. Include every relevant conviction from the information or indictment and all non-traffic nonconviction incidents asked about in the application. Add typewritten pages for additional incidents or a longer factual account, retaining each case and its complete facts. Never shorten a person's name or remove a charge to fit a field.

The attached personal-history and reasons statements contain participant-provided words. Review them for accuracy. The history must address date/place of birth, education, employment, marital status, children, residences and lengths of residence, occupation in each place, substance-abuse and mental-health information, military record and community activities. Describe the offense dates, places and circumstances in your own words and explain why you want this certificate.

Obtain supporting educational diplomas/transcripts and five years of employment records, such as W-2s, pay stubs or employer letters. Provide proof of completed counseling where applicable, current child support if applicable, DD-214 and military/tour records for the military branch, and available awards, certificates, recommendation or character letters. Follow Guidelines paragraph B-5 for fingerprint-based criminal-history timing. The packet does not create any of these external records.

No petition will be accepted for review within four years of a prior petition denial for the same individual unless the Chairman permits an exception for compelling reasons. Check the actual denial date and obtain the Chairman permission for any claimed exception. Original signatures and notarization are required. Do not sign the application oath until before a notary. Personally sign the acknowledgement; the witness/attorney supplies their own name, signature and date. Initials, all signing dates and notary controls stay blank during preparation. Read the perjury declaration; false statements can carry criminal penalties.

Delivery, timing and later court stage

Type the application. Mail or deliver the original to Illinois Prisoner Review Board, 1001 North Walnut Street, Springfield, IL 62702. No faxes are accepted. Staple or clip pages so they can be separated; do not bind them or use plastic sleeves. The adopted Guidelines require receipt at least 75 days before the first hearing date on the docket. Confirm the actual docket and delivery requirements with the Board.

Send a copy to the sentencing judge, or the chief judge if the sentencing judge is no longer on the bench, and to the current State's Attorney for the county of conviction. Include proof of delivery to the Board, such as a notarized affidavit or registered/certified-mail receipts. These Board-stage participant deliveries are different from court-stage clerk service. Do not certify a delivery that has not occurred.

The Board may ask you to attend at a scheduled date, time and location in Springfield or Chicago. The selected location is your preference, not a scheduled hearing. No more than two people may speak in a personal presentation. Obtain legal help if a hearing or advocacy is needed. The Board otherwise reviews the application and notifies the participant by mail.

Only after the Board issues the applicable certificate may you proceed to the circuit court of conviction: its Chief Judge, a designated judge, or in counties under 3,000,000 inhabitants the presiding trial judge. Attach the issued certificate to the statewide Request and complete every required companion, including the separate Case List. A PRB application or a certificate request receipt is not an issued certificate.

For the court stage, ask the circuit clerk for the actual county fee, filing method, copy count and self-represented e-filing exemption process. The held ISP fee schedule states no fee to file a petition and \$60 to process a court order; these are different events, and the county collects the applicable total. No statewide county total is quoted here. If unable to pay, use the Supreme Court Rule 298 Application for Waiver of Court Fees and obtain the waiver order. Under section 5.2(d)(4), the circuit clerk performs court-stage service; do not treat Board-stage delivery instructions as court-stage personal service.

These are synthetic diagnostic fixtures for independent review. For actual preparation, verify every supplied fact and external record; leave signature, witness, notary and agency-only controls to the person who must complete them.
