

Missouri section 610.140 continuation

Required continuation to CR360 — arrest-only facts under section 610.140.7

Petitioner: Jordan Alexandria Example. Filing county: Jackson County, Missouri.

This petition concerns an arrest for an eligible crime on 01/12/2023 in Jackson County, by Kansas City Police Department. The arrest record describes: Synthetic eligible property-offense arrest.

Participant-supplied confirmations for review before signing CR360: no charge was ever filed from this arrest; at least eighteen months have elapsed from the arrest date; during that period the participant was not charged and was not found guilty of a misdemeanor or felony; the petition is filed in the county of arrest.

This continuation identifies the arrest-only subsection because CR360 prints conviction-oriented sentences. It does not alter the official form, make a judicial finding, or sign the participant's declaration. The participant must verify every statement and follow the clerk or counsel instruction in the filing guide before signing.
