REQUIRED ATTACHMENTS AND RECORD MATCHING

Attach the ACTUAL Montana DOJ criminal record before filing. The following facts are synthetic fixture inputs, not a criminal history report, judgment, certified record or court finding.

One conviction in this set: Criminal Possession of Dangerous Drugs (marijuana); MCA 45-9-102; original case TK-2018-001235; conviction 06/15/2018; currently serving on probation.

Sentencing court: justice; Lewis and Clark County; Helena, Montana.

Participant: Alexandrina Katherine Montgomery Reyes; other names Alexandrina Montgomery Reyes; birth date 04/17/1991; 118 Maple Street, Apartment 1204, Helena, MT 59601.

Attach the actual judgment/sentencing order (recommended), an actually executed Certificate of Service (required), and the proposed order. Only mark Form A attachment boxes for documents actually included.

Other conviction TK-2018-009876 is NOT consolidated here. Generate a separate full form set for it after its own facts and relief are resolved.

Current synthetic recipient information is for a diagnostic only. Actual service requires verification of the county attorney name and mailing/email address. All provided example addresses must be replaced by actual record-bound recipient facts for participant use.

PARTICIPANT INSTRUCTIONS - MMRTA CURRENTLY SERVING

CURRENTLY SERVING ONLY: Form A applies while the sentence is still being served, including probation or parole. File in the court that sentenced you: District, Justice, Municipal or City Court as shown in your records. A completed sentence belongs on Form B. One complete form set is required for EACH conviction, even when convictions occurred together. Incarceration alone requires attorney handoff. The diagnostic fixtures are not incarcerated. This packet does not select a remedy, compute a new sentence or author a public-safety argument.

PREPARE THE RECORD: obtain your Montana DOJ criminal record; Form A makes this a REQUIRED attachment. Search BOTH Montana Public Access Portals: District Courts and Courts of Limited Jurisdiction (Searches, Case Searches, By Party). Reconcile every discrepancy with the judgment and court record. Obtain the judgment or sentencing order, recommended with the court petition and needed for the DOJ stage if expungement is granted. Never treat the synthetic intake sheet as an actual official record.

LOCAL FILING AND FEES: use <https://courts.mt.gov/CourtLocator/> to contact the sentencing court clerk; confirm all local filing rules, filing method, copies, any required cover sheet and current fee before filing. The adopted May 2024 District Court civil commencement fee is \$120; confirm the current amount. Justice, Municipal and City Court fees differ: ask that court; do not use the District Court fee automatically. You are responsible for other costs, including background records. The CRISS request has no fee.

IF UNABLE TO PAY: obtain the published Statement of Inability to Pay Court Costs and Fees at <https://www.montanalawhelp.org/resource/statement-inability-pay-court-costs-and-fees-interactive-form> and follow the clerk instructions. Its non-commercial-use restriction means this packet links to it; it does not reproduce, convert or rewrite it. No ER-100, ER-200, DS-100 or DS-200 is reproduced.

REVIEW FORM B: confirm your identity, sentencing court, enumerated offense, conviction date and current sentence posture. Leave the new Case No. blank; the clerk assigns it (OCA instructions step 4). The original conviction case number is shown in the intake for record matching. Complete the remedy election and eligibility narrative yourself after any needed legal help. These have different consequences; this packet does not choose a legal outcome or write your eligibility argument. Other/unlisted offenses, uncertain conduct classification or unresolved remedy consequences require legal assistance. Select the actual attachment and hearing boxes yourself. Present the hearing election as Form A does. Do not assume the completed-sentence no-hearing default applies here. Any request for a hearing is an adopted self-help STOP.

SIGN AND SERVE: the court will not consider an unsigned petition. Sign and date Form A; print your full name. No notarization is identified on its face. Serve a copy of the petition and filed attachments upon the COUNTY ATTORNEY FOR THE COUNTY WHERE YOU FILE. OCA Certificate of Service specifies U.S. mail and/or email: confirm the actual recipient and address with that office before service. Complete and sign/date the certificate only after actual service, with or before filing. The certificate is required with the petition; the generator never certifies service or pre-fills its execution date.

FILE THE COMPLETE SET: Form A, actual DOJ criminal record, executed Certificate of Service, proposed order and any additional confirmed attachments. The judgment and current sentencing order are required supporting court documents. The proposed order leaves every judicial finding, decision, hearing/opposition box, order date and judge signature blank. Only the court decides these. Keep file-stamped copies and verify clerk acceptance. Do not file this synthetic diagnostic packet.

COURT RESPONSE AND PUBLIC SAFETY: OCA instructions give the county attorney 21 days to respond in opposition. Under MCA 16-12-113(2), the court presumes the criteria unless the county attorney provides a reasonable basis otherwise. Even if the criteria are met, the court may refuse relief where granting it would pose an unreasonable risk of danger to public safety. Any plausible public-safety issue, opposition or requested hearing requires attorney handoff. Do not assume the subsection (7) completed-sentence no-hearing default controls this currently-serving petition. Follow actual court notices and confirm procedure with the sentencing clerk.

AFTER AN EXPUNGEMENT ORDER: the order alone does not complete DOJ deletion. Obtain the original or certified judgment and court expungement order. The separate CRISS unit is generated ONLY when the actual outcome is EXPUNGEMENT and that order is received; it is not generated merely because relief was requested. Complete the marijuana request type, review your facts and charges, sign/date the DOJ form, attach the required original/certified court documents, and mail to Montana DOJ CRISS, 2225 11th Avenue, PO Box 201403, Helena, MT 59620-1403. The marijuana request does NOT require an FD-258 fingerprint card; do not copy the misdemeanor fingerprint requirement. There is no CRISS request fee. Keep copies and mailing proof and verify DOJ processing by obtaining/checking the updated criminal record.

RESENTENCING IS DIFFERENT: resentencing changes the sentence and leaves a conviction; it does not expunge the record and has no DOJ deletion-request stage. Only an actual expungement outcome triggers the separate CRISS form. MCA 16-12-113(3)-(4) requires credit for time served, prohibits supervision after resentencing, prohibits a term longer than the original sentence, and prohibits reinstatement of charges dismissed under a negotiated plea agreement. Any computation or choice of remedy is for legal assistance; this packet calculates nothing and writes no public-safety argument. Form A uses misdemeanor and civil-infraction resentencing elections; resolve the actual election personally with any needed legal assistance.

TERMS AND LIMITS: expungement is not removal, redesignation or resentencing. DOJ expungement deletes the specified criminal-history record; do not promise destruction of every agency/court copy or permission to deny a conviction. Follow the order and verify any required notice/copies to the arresting agency, prosecutor and clerk; do not stop after receiving the signed order. Whether a cleared record may lawfully be denied is a hard self-help STOP. MMRTA relief does not disqualify a later misdemeanor-expungement petition under MCA 16-12-113(12); that is a separate route with separate requirements.

REQUIRED SELF-HELP STOPS

STOP: Any participant who is currently incarcerated. Custody status alone is an attorney-handoff trigger for this track.

STOP: Any case where the public-safety override is plausibly in play.

STOP: Any resentencing computation.

STOP: Any uncertainty about whether the historical conduct is now permitted or now punishable by a lesser sentence.

STOP: Any offence not on the OCA form's enumerated list.

STOP: Any county attorney opposition.

STOP: Any request for a hearing.

STOP: Any noncitizen participant.

STOP: Any choice between expungement and resentencing where the consequences differ.

THIS FIXTURE'S CONDITIONAL STAGE

No received expungement order is present. The DOJ deletion form is not included. A request for expungement alone does not trigger the post-order unit. Resentencing never triggers this deletion unit.

MANUAL PROTECTED INPUTS

Your remedy election, eligibility narrative, hearing election and actual attachments remain blank on Form A. They must be personally resolved/completed before filing; the generator does not select legal consequences or manufacture testimony. Court/prosecutor decisions and all execution fields remain blank.
